SUMMARY

Web Engineer with 8+ years of experience in front-end and web development using React.js, Next.js, and modern JavaScript. Experienced in developing reusable UI components, translating UI/UX requirements into responsive production-ready interfaces, integrating CMS and APIs, and optimizing applications for performance, accessibility, SEO, and scalability. Experience working with data visualization, databases, CI/CD practices, and modern web development tools. Strong experience collaborating with Product, Design, Marketing, and development teams, with experience mentoring junior developers.

EDUCATION

Alagappa Chettiar College of Engineering & Technology (ACCET), India

B.Tech – Electrical & Electronics Engineering

2017

EXPERIENCE

Principal Web Developer

2025–Present

HighRadius

Hyderabad, India

- Developed scalable front-end solutions using React.js and reusable UI components for enterprise web platforms.
- Translated UI/UX requirements into responsive, production-ready web experiences in collaboration with Product, Design, and Marketing teams.
- Worked with headless CMS platforms including Sanity and Contentful to build flexible, content-driven web experiences.
- Improved user journeys through A/B testing and data-driven UX improvements, contributing to 20%+ improvement in lead capture.
- Integrated HubSpot, Salesforce, GA4, Microsoft Clarity, and Amplitude to support marketing and website analytics requirements.
- Implemented CI/CD workflows and maintained code quality standards for reliable production deployments.
- Worked with data-driven web interfaces and visualization requirements where applicable.
- Mentored junior developers and supported development best practices across the team.

Web Developer II

2022–2025

HighRadius

Hyderabad, India

- Developed responsive and accessibility-focused web interfaces using React.js and Next.js in collaboration with Product and Design teams.
- Built reusable front-end components and integrated headless CMS platforms for scalable content-driven websites.
- Developed SEO-focused landing pages and microsites across multiple geographies, contributing to 30% organic traffic growth.
- Improved front-end performance, page loading, responsiveness, and overall usability through performance optimization.
- Worked with data-driven interfaces and visualization requirements for web experiences.
- Streamlined deployment workflows, reducing release cycles by 25% while maintaining performance and compliance standards.

Web Developer

2021–2022

Camp K12

- Developed and enhanced web interfaces using Next.js with server-rendered content and headless CMS integration.

- Improved responsive behavior, page loading performance, and overall usability through front-end optimization.
- Worked on UI improvements to support better user engagement across web experiences.

Full Stack Developer

Macaw Digital

2020–2021

Hyderabad, India

- Developed reusable React.js components for dynamic and interactive web applications.
- Built web applications integrating RESTful APIs and MySQL.
- Worked with database-driven applications and REST API integrations.
- Implemented responsive UI and SEO best practices to improve website usability and visibility.
- Collaborated on front-end and back-end development to deliver web features from requirements through implementation.

Full Stack Developer

Wander Gateway

2018–2019

Guwahati, India

- Developed and maintained responsive, mobile-friendly web solutions.
- Implemented SEO and analytics integrations to support website visibility and performance.
- Worked on front-end improvements and website maintenance across multiple web experiences.
